para uso público / *for public use*

FHL es una solución ideal y práctica para romper barreras arquitectónicas en lugares como tiendas, restaurantes, oficinas, hoteles, centros comerciales, ayuntamientos, etc. La gran variedad de acabados estéticos permite adaptar el FHL a cualquier ambiente.

FHL is an ideal and practical solution to break architectural barriers in places like shops, restaurants, offices, hotels, shopping centers, town halls, schools, etc. The wide choice aesthetic of finishes allows clients adapt the FHL to suit their requirements.

Directiva 2006/42/CE
Lift Directive 2006/42/CE

FHL

Platform lift

para uso privado / *for private use*

Los elevadores FHL cubren cualquier necesidad de uso en casas privadas, para uso de toda la familia y ayuda a personas con movilidad reducida. Pensados y diseñados con la máxima seguridad para cuidar de todos los usuarios.

The FHL elevator is ideally suited for installation in private residences, for use of the whole family and for persons with limited or reduced mobility. Designed with maximum safety features taken into account for end users.

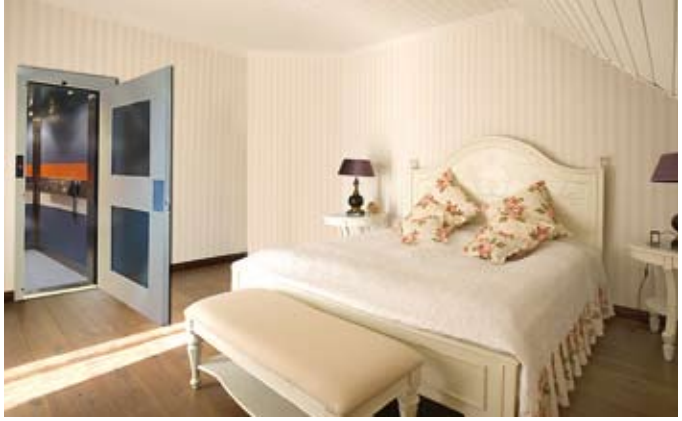
Diseño, delicadeza

Design, sensitivity

Cuidamos de los pasajeros

We take care of passengers

FELESA



futuro y confort

future & comfort

FHL dispone de elevadores con puertas automáticas dentro y fuera de cabina lo que permite un cómodo acceso al elevador de las personas mayores con movilidad reducida. Pensar ahora en nuestro futuro lo hará más confortable.

The FHL elevator has automatic doors both on the inside and outside of the cabine which allows easy access into the elevator for older persons with limited or reduced mobility. Thinking about our future now will make it more comfortable in the future.

especificaciones técnicas

technical specifications

Características
- Plataforma elevadora para uso de personas con movilidad reducida.
- Configuración flexible en tipos de puertas y disposiciones.
- Carga nominal: 250 Kg. – 385 Kg.
- Velocidad máxima: 0,15 m/s.
- Recorrido máximo: 15 mts.
- Tracción: Hidráulica 2:1
- Recorrido seguridad mínimo: 2400 mm. (2500 mm. con puertas automáticas)
- Foso mínimo: 150 mm. (≤ 315 kg.) 170 mm. (≤ 385 kg.)
- Equipo hidráulico silencioso y fiable.
- Maniobra eléctrica controlada por microprocesador.
- Tensión: 220V Monofásico.

Normativa
- EN81-41
- Directiva 2006/42/CE
- Directiva 2006/95/CE
- Directiva 2004/108/CE

Specifications
- *Hydraulic platform for use of people with reduced mobility.*
- *Flexible configuration in types of doors and dispositions.*
- *Nominal load: 250 Kg. – 385 Kg.*
- *Maximum speed: 0,15 m/s*
- *Maximum travel: 15 mts.*
- *Acting: 2:1*
- *Minimum headroom: 2400 mm. (2500 mm. auto doors)*
- *Minimum pit: 150 mm. (≤ 315 kg.) 170 mm. (≤ 385 kg.)*
- *Silent hidraulic equipment.*
- *Electronic controller with microprocessor.*
- *Voltage: 220V Single phase.*
